nix of different kinds of clay forms the basis for this facing brick. This special		of clays is ideally	y suited for the manufacturing	
f facing bricks. Due to the use of the waterstruck-technique the	e facing bricks sight	will appear smo	othly textured without sand	
oated surface.				
C	olour			
Inicoloured yellow with soft shades.				
	ormat			
Moulding method Mould				
NF: 240 x 114 x 72 mm	Between batches the a	Between batches the average size and color may slightly differ.

Storage & handling	Cutting
 Store packs on a clean surface and cover them Process from multiple packs at the same time Follow the Vandersanden processing guidelines 	Cutting with power tools may generate dust. This dust may contain silica or quartz particulate which may constitute a hazard. Persons undertaking work of this nature are advised to wear dust masks (FFP3).

* All our Coated bricks are only coated on the facing sides. Coated products are specially labeled and recognisable with a "C" logo on the top left-hand side of the packaging. Always check if using coated or non-coated bricks. Match the mortar to the specified initial water absorption.
