

Product name	Product group	Production location
Pirna (B-Loch)	01	Vierkirchen

The use of high-performing Oberlausitz clay with a high volume of schist ensures the production of extruded facing bricks with a very low water absorption rate. The final colour is obtained by firing te bricks till sintering temperature. By smothering the brick the typical blue-grey colour is obtained.

the typical blue-grey colour is obtained.	. •	, ,	
	Colour		
Smuthered grey with dark shades			
Format			
Moulding method Wirecut			
NF: 240 x 115 x 71 mm Between batches the		overage size and color may slightly differ.	
Essential Cha	aracteristics - EN771-1		
EN 771-1 - 2510-CPR-316	C f	UK CA	
2+		4	
Dimensional tolerances	T1		
Range	R1		
Active Soluble Salts	S2		
Mean Compressive strength	>= 45 N/mm²	Tested to the bed face	
Normalized Compressive strength	>= 31 N/mm²	Tested to the bed face	
Dimensional stability	NPD		
Bond Strength general	0,15 N/mm²		
Bond Strength thin layer	0,30 N/mm²		
Reaction to fire	A1	Category	
Water absorption	<= 6% m/md		
Water vapour permeability	50/100		
Net dry density	NPD		
Gross dry density	1520 kg/m³ (D2)		
Thermal conductivity Lambda 50/50	NPD		
Durability against freeze thaw	F2		
Dangerous substances	NPD	According to Annex ZA 3	

Other Characteristics				
Initial rate of water absorption - Non-coated Bricks	NPD	Value according EN771-1:2011 - 5.3.8		
Initial rate of water absorption - Coated bricks	NPD	Value according EN771-1:2011 - 5.3.8		
Freeze/thaw resistance - PTV 23-002	NPD	NBN 27-009		
Thermal conductivity Lambda 90/90	NPD			
Thermal conductivity Lambda Ui	NPD			
Thermal conductivity Lambda Ue	NPD			

Storage & handling	Cuttii
Storage & nandling	Cuttii

- Store packs on a clean surface and cover them
- Process from multiple packs at the same time
- Follow the Vandersanden processing guidelines

Cutting

Cutting with power tools may generate dust. This dust may contain silica or quartz particulate which may constitute a hazard. Persons undertaking work of this nature are advised to wear dust masks (FFP3).

\* All our Coated bricks are only coated on the facing sides. Coated products are specially labeled and recognisable with a "C" logo on the top left-hand side of the packaging. Always check if using coated or non-coated bricks. Match the mortar to the specified initial water absorption.
